

Title of your project

Stanford CS229 Project

Name

Department of Computer Science
Stanford University
name@stanford.edu

This template is built on the NeurIPS 2019 template¹ and provided for your convenience.

1 Key Information to include

- External collaborators or mentors (if you have any):
- Sharing project with another class:
- Project Category:

2 Introduction

Provide a clear motivation and build up to your problem statement. Why is your problem interesting? What work has been done in related areas?

3 Problem statement

Define the goal of your project as a formal problem statement.

4 Methodology

Describe the model(s) you propose, and techniques you plan to use.

5 Intended experiments

Include things like model details, datasets, baselines, evaluation metrics. Here is how to use a reference: [1] if you want to include them. Include the references in the references.bib file.
